<p>We visit my brother and his family in Upper Cumberworth frequently and it would be a tragedy for this village to lose its character and its heart. The woods are such a wonderful sight and any development on that field will cause water to run off into those woods - even if its stored in a tank and released later. In that run off will be chemicals and construction site toxins from the tarmac and the brickwork. This will damage the woodland. Not to mention the fact 123 house will massively expand the quaint Yorkshire village, destroying its character and overloading its roads with hundreds of extra cars and hundreds of extra people. Just reject this ridiculous proposal.</p>
