Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
<p>An objection in the strongest terms....i visit my daughter on Park Lane 3 times per week. I'm still stunned this is even being considered.</p> <p>Green belt farmed land. Just NO!</p> <p>Built right to the edge of the ancient woodland. Huge damage will be caused to the biodiversity and structure of this wood. Just NO!</p> <p>Even building further away because of the slope of the field the run off from firstly building and then the houses will cause serious pollution in the wood.</p> <p>There are bats and deer and protected ants in that wood. It will destroy their habitat.</p> <p>There are constant issues in the field and manholes and pipework around the woods...</p> <p>Yorkshire water knocked my daughter's wall down on my last week taking wagons down.</p> <p>Where are the new residents going to get a doctor?</p> <p>Aren't new estates supposed to be near jobs and transport links? There are no jobs in Cumberworth and the transport links are virtually non existent, no matter what the developers might say.</p> <p>To go anywhere you must use a car...the average car ownership in HD8 is 2.5 and not the 1.5 they state. So that could be IN EXCESS OF 600 CAR MOVEMENTS A DAY!!!</p> <p>This onto a road network already stretched and which is about to get quarry wagons running through the village too. And from the village the cats have then got Huddersfield's most dangerous junction to negotiate. I object for all these reasons..this is increasing the size of a village by a third with no need. There is plenty of grey/brown belt sites in KMC and thousands of empty properties. REGENERATE KMC, show us your green credentials.</p>
