

Re The Building Project at (Housing)
Upper Cumberworth (Barnsley Rd)

Dear Sir

These are my strong objections to this new housing project.

As I understand it under the current local Develop plan it is Kirklees policy not to build on Green Belt agricultural land - this should be adhered to.

This land grows food every year - provides open space - views for people living nearby who come to live in a village.

The land is next to an ancient wood which will ^{be} seriously disturbed by this project. Many people in the village enjoy the wild life in these woods.

Barnsley Rd is already very busy traffic wise. As the plans have been passed for the Quarry which will bring 120 heavy goods lorries on that road - more strain on drains water pipes etc.
