I have objections to the planning application 2025/93572, my reasons are as follows; The power grid already struggles with supplying the area, this is shown in frequent power cuts. This will be nothing but a transit hub, putting more strain on local amenities, health care and schools. Wildlife will be greatly affected if not diminished by the pollution created by the construction and then the habitation, this is being built on Green belt land which is currently been used to graze livestock and grow crops!
