<p>I wish to object to the proposed development on the grounds that it will negatively impact our village.</p> <p>The land in question is listed as Greenbelt and as such should not be built on! The site also backs on to ancient woodland where various types of wildlife live. The current infrastructure is not suitable for a development of this size, there are no amenities in the village apart from a pub &amp; post office so that means more traffic on the roads to visit local businesses in the next villages.</p> <p>Barnsley road is an extremely busy road already with commuter traffic, hgv's from the quarry adding to the danger on the road and the accident blackspot at sovereign crossroads which is only going to get worse with the extra vehicles from the proposed building site!</p> <p>Carr hill road being used as a rat run to avoid the sovereign crossroads making it a very dangerous road with no footpaths. The sewage and water system is not sufficient for the amount of properties in the immediate vicinity with constant repairs carried out on a weekly basis.</p> <p>If you want to turn what is currently a rural setting into housing then it will no longer be rural! It will be an urban sprawl. The local school is already oversubscribed as are the Doctors surgeries in the vicinity.</p> <p>I strongly urge you to decline the planning application and leave this land as agricultural.</p> <p>Please do not publish my address or personal details.</p>
