<p>I'd like to object to the following planning application on the following points.</p> <p>Traffic issues. If you drive on either Carr Hill Road or Barnsley Road at most times you will see that either junctions can not take the amount of traffic that use these roads with out the proposed development in cumberworth. Both of the junctions are notorious for accidents too. The road from Upper and Lower Cumberworth will also see an increase in traffic which at the moment is a near single track road in places.</p> <p>Building properties so close to the Woodlands. If you have ever walked in the woodlands and surrounding area you will know that these areas have various types of wildlife that use both the fields and the woodlands. If these houses are built then we are destroying the habitat for the wildlife.</p> <p>Water and sewerage infrastructure. In the last couple of years both Upper and Lower Cumberworth have had either water or sewerage issues with both Barnsley Road and Cumberworth Lane being dug up on a regular basis showing the pipeworks can coupe with the amount of house we already have in the. village.</p> <p>Size of the village. If these houses are built then the size of the village will increase by a third. Which in one development is a massive increase to the village.</p>
