<p>If they built houses on the green belt they would destroy the animals natural habitat and all the people living in the houses will make more emissions from the cars and vehicles that they own their will be more dangers to pedestrians going along the main roads and where young children get the bus to school. The parking around cumberworth is already limited and if more cars are going to be around the area their may be more parked cars and more dangers to the area. Behind Our green belt is an ancient woodland that should be preserved and protected.</p>
