<p>There are many reasons to object to this application, the main one being that is to be built on green belt land, prime agricultural land which is outside the Kirklees development area. Once you build on green belt the land is lost for ever. This development will increase the size of the village by nearly a third and I don't think the present utilities can cope with this as we already have problems.</p> <p>There is likely to be about another 200 cars and the roads are getting much busier and will be even busier once the quarry lorries start , 1 every 5 minutes. The Sovereign crossroads will be a nightmare.</p> <p>The development will also damage the ancient woodlands next to the site and destroy the flora and fauna of the field.</p> <p>There are not the facilities in the village to cope with this size of development. It is very difficult to get to see a doctor and all these houses will make it nigh on impossible.</p>
