<p>I grew up in Upper Cumberworth and my parents still live in village. We visit regularly and now often stay at their house. I have grown up playing in the ancient woodland and for this reason I object to the housing application which would be severely detrimental to the site, affecting wildlife, biodiversity and open space for the local community to enjoy. The proposal is on green belt which is contrary to national policy and the local plan. Brown belt sites should be considered ahead of green belt which needs to be protected for all. Additionally, the village school and supporting services such as GP is too small to accommodate and additional 123 houses, approximately 88 children of school age which doubles the size of the entire village school.</p>
