

About the application

Application number: 2025/93572	
What is the application for?:	Outline application with all matters reserved, bar vehicle access into the site,
Address of the site or building:	Land South of, Barnsley Road, Upper Cumberworth, Huddersfield, HD8 8NN
Postcode:	

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
<p>I object to building on the proposed field because: This is not in the local plan, this should be all i need to say! We have a process that is there to protect land and residents, so why are you even considering this? However, the land sites directly between a conservation area and ancient woodland. Not near or in close proximity but DIRECTLY next to the conservation area and the Ancient Woodland. A development of this size in a village with only 320 houses is outrageous, development if it must happen needs to be gradual, in order for infrastructures to be developed along side. The entrance to the site is on an already dangerously busy A Road, with a new quarry you have already approved! The Sovereign junction is already at breaking point and Carr Hill Road had yet another accident because it is now a cut through to avoid Sovereign junction. Carr Hill Road does not even have a pavement. The Yorkshire Water network is at breaking point already, when it rains the field and the Ancient woodland already flood. There is one small post office, no shop, no other amenities. So all deliveries or food shops will have to be done by car. Thats another 300 cars on the road! It simply is not the right thing to do, and thats why its greenbelt, thats why its not in the plan, thats why it should remain left as greenbelt.</p>
