<p>Upper Cumberworth first school is already over populated with children & I do not understand how they will be able to cope with the additional children from this development.</p> <p>In addition to this, the sovereign junction is frequently sited as a major incident site, despite changes & new speed restrictions being introduced. Having even more cars in this area will add more transport pressure in the area and potentially lead to more fatal injuries along that road.</p> <p>This development could cause major destruction to the ancient woodland that sits next door, this is particularly concerning given some houses will sit almost 15 meters away from trees that go back to 1600AD. They must be protected and a housing development is not the way to do this.</p> <p>Having lived in the area growing up, the road has major flood incidents when the rain is heavy. This has caused my own garden (on the same road) to flood on multiple occasions. It is simply not suited for a large scale development project.</p>
