<p>I am a child and suffer with various medical conditions, I like walking with my mum and dad through the open fields and spotting the birds especially the owls that catch mice in the fields, and the woodpeckers in the ancient woodland. This area is my home and the peace and quite of a rural village helps with my conditions.</p> <p>Building so many houses will destroy the life i know and make me very sad as i do not like busy places with lots of people as this causes me anxiety.</p> <p>I am worried about the owls and the woodpeckers as so many houses and people near their home might make them leave the area and i wont be able to see them again.</p>
