<p>I am objecting to the above application as I regularly visit friends in upper Cumberworth and cannot believe there is a proposal to develop this beautiful field . We regularly walk in the woodlands and I know there are trees there that date back to the 1600s . The woods are wonderful in every season , we have walked in deep snow and in the autumn when the colours are fantastic . There is a lot of wildlife and wonderful plants , developing the adjacent field will destroy this . There will be lots more trampling , increased dogs and cats that will destroy the bird life.</p> <p>The views from the penistone road down to the little church of St Nicholas is a great vista and the unmade track that leads down to Park lane affords great views . This landscape will be destroyed and it has been there for centuries .</p> <p>I am concerned about the effect of all those extra cars , we know most houses have two and with three and four bedroom homes this may be more . The Barnsley road is already very busy , I know this from staying with my friends , it is mad to say that people from this new estate will walk - why would their habits be different from families already in the village? There is no amenities and little work , people will have to travel and they will do this by car . The traffic will be horrendous , and those that don't go by way of the garage , will just short cut through Carr hill road . This will be a real safety issue as it is a school walking route and there is no pavement.</p> <p>Recently when visiting I have seen first hand yorkshire water attending burst pipes , on two occasions the road was down to single file traffic light controlled , how will the system cope with these new houses .</p> <p>Refuse this application .</p>
