<p>I strongly object to the development of land which is currently fields and trees for housing, as this in an area that is not able to provide the infrastructure to support over 120 family's. Already schools, doctor's surgeries and roads in this area are inadequate. Additionally the development of this site will have a negative environmental impact on the land, eradicating natural habits for animals, birds and insects, and forever destroying our green belt land. I strongly disagree with yet another housing development on any green belt on the outskirts of Huddersfield, there has already been countless new housing developments and we are rapidly loosing our natural environment .</p>
