

About the application

Application number: 2025/93572	
What is the application for?:	Outline application with all matters reserved, bar vehicle access into the site,
Address of the site or building:	Land South of, Barnsley Road, Upper Cumberworth, Huddersfield, HD8 8NN
Postcode:	

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
<p>Green belt land should NOT be built on when there are brown field sites/derelict buildings that could be refurbished available to build homes. Having hundreds of extra people wandering through the woodland will negatively impact on the habitation of wildlife in the woods and surrounding area and I'm concerned about water pollution that could harm pond life. The increased number of cars will increase the risk of road accidents, which will add danger to Cumberworth Church of England First School on Cumberworth Lane and will add to the numerous pot holes that will further degrade village roads. An additional 123 houses to the village will add pressure to already busy services such as doctors, negatively impacting the healthcare of residents. Building new houses will spoil the current views of rolling, green hills and will damage the village character/landscape. This application should NOT be allowed and I'd like to understand which brownfield/derelict sites have been considered to create housing before building on green belt land.</p>
