<p>I drive past this proposed site on a regular basis and strongly object to its development . This is green belt and if planning is approved here , more green belt will follow . This will seriously impact on the long range views from Birdedge and High Flatts down to the cumberworth conservation area. I walk in those woods that adjoin the site with my dogs , the pathways are wonderful and tranquil and I have regularly seen deer and the bird life is just amazing . The noise and pollution , not just at the construction phase will impact on the delicate ecosystem and this will cause change . These are ancient woodlands and are protected.</p> <p>The developer has not accurately reflected the traffic impact in my view . The figures assume a high percentage of households will walk or cycle , the distances are not correct and the reality is people will drive . There is only one bus / train per hour and frequently my friends children have been caught out and had to be collected by car . These roads are busy , with traffic at peak times rendering the sovereign crossroads to exceed capacity and it's an accident black spot . Cars divert up Carr Hill , a road without pavements , or head down cumberworth lane both of which are unsuitable . There are no amenities , the one pub and post office do not want this to proceed . There is no infrastructure , drainage is inadequate and there are frequent burst pipes . This development if it proceeds will destroy this lovely village and its countryside . Refuse it .</p>
