Good Evening,

I wish to express my comments and appose the proposed development, Upper Cumberworth 2025/60/93572/E

As a local resident the traffic increase on an already busy and fast road could prove fatal, the junction at The Star public house is already very challenging at certain times of day, with increased traffic from this development and extra quarry lorries once the extraction of clay begins from Bromley Farm, I believe we would be at the point of overload.

The ancient woodland adjacent to the site is always kept clean & tidy, with the development next door I can't see that would last, damaging the environment and habitats of several species.

Local infrastructure, meaning schools, doctors, roads, sewers and drains are already at full capacity, and again the development would just lead to overload.

Keep it simple by not allowing the development.
