UPPER CUMBERWORT PROPOSED DEVELOPMENT 2025/60/93572/E

I strongly object to the above referred to proposed development on the following grounds.

with property bordering both Dearnfield and Barnsley Road (A635) I experience the effect of traffic on Barnsley Road. Traffic on Barnsley Road will undoubtedly increase with this development beyond its already high level, currently probably already exceeding its design capacity. Already heavy vehicles on this road causes ground vibrations indicating the Road structural integrity is suffering which will ultimately lead to failure. With this proposed development the structural formation of this road could be undermined by this development ultimately leading to landslides and a catastrophic failure.

Added strain on Public services ) (NHS, Schools) which are already strained and suffering from inadequate financial support.

In addition roads are dug up to provide utilities (water, gas and electric) are never properly repaired leaving behind patched roads leading to potholes that seem never to be repaired and cause extensive damage to all vehicles that traverse these roads.

Yours faithfully,

(to stay Anonymous please)
