Planning Ref - Upper Cumberworth 2025/60/93572/E

I strongly object to the above application for the following reasons.

I am concerned about the increase in numbers of people this development will generate.

The increase in people will have a massive impact on our local resources. What will happen about the increase in use of medical facilities, doctors, dentists, and the burden on the already stretched local schools.

I am also concerned about the additional road traffic that this development will generate, the amount of road traffic increase means a greater chance of road accidents in an already accident prone area. There are already areas of roads which are deemed to be unsafe, I worry that more traffic will result in more accidents.

I am equally concerned about the harm to our local heritage spots as nothing has been said about protection for these.

I am concerned about the loss of the woodland and surrounding Greenland areas.
