Planning No 2025/60/93572/E Land at Upper Cumberworth. OBJECTION

I wish to object to the terrible proposal to build 123 houses on Green Belt land in Upper Cumberworth.

I do not live in Cumberworth but visit family there regularly. It is a beautiful conservation village with a proper village feel and a close community. Building all these houses will destroy all of that and make Cumberworth a commuter village. Also the fact that it is Green Belt land and used for farming surely means that the application should not even be considered.

When I visit my family we go for long walks in the beautiful surrounding countryside and always pass through the woods. These woods are so peaceful and calming. All those houses bordering the woods would destroy the peacefulness, not to mention the harm that will be caused to the woodland by building so close to the ancient woodland .

Travelling to Cumberworth means navigating the nightmare that is the Sovereign junction. How many more cars will be passing through daily if this proposal goes ahead? How many more people need to die before Kirklees accept that it is a problem?

Please do not pass this planning application. Use the Brown field sites instead.

Thank you.

Please do not publish my name and address. I wish to remain anonymous.
