<p>I regularly visit friends in Cumberworth and cannot believe that a development of this size is even being considered in such a tiny village. We love the close-knit community feel of Cumberworth. Having seen the damage that excessive building has done to our local town I fear that Cumberworth will become just another commuter village, should this development go ahead. There are limited opportunities for employment, few amenities and poor transport links yet the developers would have you believe that you do not need a car to live in Cumberworth. In reality the houses are likely to have 2 cars each. How can the local roads, already in poor repair, cope with all those extra journeys, each and every day? I am already familiar with taking my life in my hands as I try to navigate safely across the Sovereign crossroads. Although not a resident, Cumberworth is very dear to me. I love the walk up Park Lane and through the woods and have done it in every season. I hope that Kirklees Planning Department will see sense and throw out this application. It will ruin Cumberworth for ever</p>
