<p>I have lived in my current home which backs on to this site for over 60 years. The developer claims to have held extensive consultations with local residents but I have never had the opportunity to comment prior to the application being submitted. I would, therefore, question how extensive the consultations have actually been.</p> <p>The scale of the development will also have a significant impact on the nature of Upper Cumberworth as a village. It will put a strain on the local primary school which would be over capacity with the number of children likely to be living on the new development. This will be even further exacerbated in Scissett Middle School which is already over-capacity. Shelley High School does have some overall capacity but this is mostly in the Sixth Form, rather than years 9-11, as many pupils in the area prefer to study at Greenhead College and New College in Huddersfield based on results and greater choice of A levels.</p>
