| <p>Planning ref. Upper Cumberworth 2025/60/93572/E Land South of, Barnsley Road, Upper Cumberworth, Huddersfield, HD8 8NN I very strongly object to the above planning application. The proposed development will increase traffic, the existing speed limit on Barnsley road and Carr Hii Road are constantly abused and ignored. The Sovereign junction is especially busy at peak times causing long queues, this leads motorists to use Carr Hill Road as a rat run where there are very few pavements, this a major hazard for residents and visitors to the area, children are unable to ride their bikes due to safety issues. Additional traffic through the village will cause increased pollution causing a risk to the health of residents. The quarry will potentially have 120 lorries using Barnsley Road each day, one every 6 minutes The proposed development will have a catastrophic effect on the ancient woodland and the proposed buffer zone is totally inadequate. The woodland is home to large numbers of wildlife, flora, fauna, some of which are protected species and are irreplaceable. This development is not wanted or needed, it will have a detrimental effect on wildlife, ecosystems and the lives of residents living in Upper Cumberworth. I urge Kirklees Council to reject this planning application.</p> | |
