<p>I visit and stay with my parents in the area, who live in very close proximity to the proposed building site. I wish to register an objection. As is recorded in other objections, the number of houses represents a 30% increase in the size of the Village, which is appears to be totally inappropriate given the existing infrastructure. The development is bound to be car reliant as public transport is infrequent and unreliable and there are no meaningful facilities with-in the village. I understand, having read comments from Yorkshire Water, that the site is totally in appropriate in view of the lack of modern sewage infrastructure. The roads are no way suitable to allow the extra load, which this building work would bring, increasing danger to children, vulnerable adults and those at high risk. I would respectfully request this application be rejected.</p>
