<p>I believe this development will bring far too much traffic to an already overly used stretch of road. The Sovereign is already an accident black spot and the increased traffic will only exacerbate this. I also worry about Carr Hill Road becoming even more of a Rat Run. This road is already used as a cut through and there is stretches of this road that are without pavement, making it dangerous enough without the addition of traffic.</p> <p>I also believe the environment impact will be significant. The ancient woodland adjacent to the field will be disrupted significantly, the watercourse feeding the River Dearne will be especially effected and the area which is set to be built on is Greenbelt, so building on this site is unethical.</p>
