<p>There are too many properties in this planning application close together and crammed in, and they are too close to the ancient woodland. There is not a big enough buffer zone, and the proposed development is too close to the woods. The natural environment of the woodland will be ruined. It will badly affect the area and its character. It will have a negative effect on wildlife and the river and the surrounding landscape. The road is already dangerous now and with so many proposed houses it will be even worse.</p>
