<p>I am writing to object to Planning Application 2025/60/93572/E for the proposed development of 123 homes on Green Belt land.</p> <p>My objection is based on the following key points:</p> <ol style="list-style-type: none">1. Green Belt Protection This site is designated Green Belt, where development should only be allowed in very special circumstances. Building 123 houses is clearly inappropriate and harmful. No valid justification has been provided to override this protection.2. Loss of Open Land The development would permanently change open countryside into a large housing estate. This goes against the purpose of the Green Belt, which is to prevent urban sprawl and protect rural areas.3. Traffic and Infrastructure A development of this size will increase traffic and put pressure on already stretched local roads, schools, and healthcare services. There is no clear evidence that the area can support this level of growth.4. Impact on the Area The proposal is out of character with the surrounding environment and would negatively affect the look and feel of the area. <p>This is the wrong development in the wrong location. It conflicts with Green Belt policy and would cause lasting harm to the area.</p> <p>I strongly urge the Council to refuse this application.</p>
