Subject: OBJECTION to proposed planning application 2025/60/93572/E
Attachments:

Dear sirs

I am writing to object to the proposed development at:

Land South of, Barnsley Road, Upper Cumberworth, Huddersfield, HD8 8NN

It is my understanding that the field under question is being referred to as 'LOW GRADE' and I would like you to refer to my short video, which clearly shows that across the years this field has been productively farmed, this film was taken in July 2024 and crops can be seen growing. Further images from Google street view support this too, please see attached from 2015, those records go back to 2009 and even show cows grazing too!

I have lived alongside this field in Upper Cumberworth for 24 years and over those years the farmer has 'muck' spread annually...which has been challenging on our nostrils let me tell you! But humour aside, this land has been tended to respectfully and adequately to ensure the earth is rich and ready for crops.

It is misinformation to refer to it as 'low grade' surely?

I implore you to protect this productive Greenbelt land and say NO to this **unethical application.**
