<p>I don't live in the village but I am a visitor to the village and have taken walks across the Barnsley Road to enjoy the park in the village with my children and walks in the woods. This is a very busy road and at most times feels a very dangerous road to cross with children, to suggest walking to anywhere outside of the village is simply not viable.</p> <p>I have been reading about the sustainability of the proposed development of 123 residential houses on the designated Green Belt land along Barnsley Road and I find it very difficult to understand how this can be realistic:</p> <ol style="list-style-type: none"><li>1. The development is proposed in an area where public transport links are poor. There is one bus per hour (most days) in each direction which takes almost an hour to get to Huddersfield and all services to &amp; from Huddersfield stop at 6pm.</li><li>2. Denby Dale train station is a lonely 1.3 mile walk away along this very busy road</li><li>3. An Increase in traffic on an already busy road infrastructure brings with it more pollution &amp; more noise and is not safe for pedestrians to cross.</li><li>4. 123 houses will significantly increase traffic on already constrained local roads and exacerbate parking pressures.</li><li>5. This increase of people living in the area will place additional strain on local services such as schools, healthcare, and drainage.</li></ol> <p>Please make sure that this type of opportunistic application is prevented by disregarding the application in full.</p> <p>Look after and protect your beautiful GREENBELT, it makes HD8 worth visiting.</p>
