As the neighbouring property to the proposed development, I vehemently object to this application as it is in extremely close proximity to our property and the proposed plans will impact our home and family in a severely detrimental way. It will mean three windows of our property losing the light and being very closely overshadowed by the proposed dwellings which will directly and negatively affect our mental health and wellbeing with the loss of light including sunlight and daylight which is crucial for physical, emotional and mental health and wellbeing. For this very reason, it will also cause the value of our property to fall significantly. I am also greatly concerned as to the loss of our privacy which every home is entitled to. This is the last remaining green space in our area and the proposed development would mean a great loss to our community as it proven that greenery and nature offer untold benefits to one's mental, emotional and physical health and wellbeing. To lose a vast portion of that green space to the erection of two residential dwellings would be devastating. For these reasons and the simple fact that the proposed development is just too close to our home, I request you to take my objections into serious consideration and refuse the proposed planning application.
