Planning Application Reference: 2026/90116 Site: Land at Eastborough Crescent, Dewsbury I wish to object to this planning application as a resident of a neighbouring street. The proposed development would significantly worsen existing parking problems in the area. Surrounding streets already experience high levels of on-street parking, and the addition of two new dwellings will lead to overspill parking, increased congestion, and potential highway safety issues. The proposal will also result in increased traffic and vehicle movements in a quiet residential area, which is not suitable for the existing road layout and will negatively impact local amenity and safety. Furthermore, the development would lead to the permanent loss of green/open land that currently contributes to the character and openness of the area. The site provides important visual relief and its development would represent overdevelopment that is out of keeping with the surrounding neighbourhood. For these reasons, I believe the proposal is unsustainable and should be refused.
