I am in favour of this application of 2 houses as this land is just wasted.

It is often fly tipped on at night by removal companies and local residence.

Also we have teenagers just sat on the wall and smoking away so 2 houses built would prevent this.

Currently when im turning right into the street there is always 2 or 3 cars parked close to the junction- having 2 houses with 4 off street parking will enable me to turn into the street as no residence will park their cars in front of their driveway as if they do then they will be blocking the driveways.

Having 2 houses will make the area look good aswell as it will deter kids to sit on the wall and fly tippers wont be able to leave their rubbish.

I am fully supportive of the application as it will complete the street nicely.

The is knocking on peoples door to put in objections for the 2 houses to be built just because doesnt want the houses there.
is telling everyone to put in objections about the loss of the green grass and how it will cause everyone to go mental and affect their well being.
But mentioned if had bought the land then would have built 6/9 flats or 3 houses.
One rule for and different rule for others.
Maybe should have just bought the land- realised a bit late i think.

a fair person- people cant object simply because they lost the bidding at auction.
told views were and didnt take it well.
