<p>we are concerned that our interior light levels will be affected in the stair well , landing , hall, utility and toilet by the close proximity of the new double story extension blocking the light from at least 4x facing windows to the side of our property and creating a dark alleyway between the two properties.</p> <p>Also the light will be affected in our single story kitchen with the intrusion into our personal space with the ability of looking directly into the kitchen through the 4x clear glass roof lights facing the rear of the proposed extension which would be overlooked by the rear bedroom.</p> <p>Concerns must be raised as to the proximity of the new foundations to our existing, due to this being on mining land.</p>
