I would like to formally object to the proposed house extension. The inclusion of balconies that overlook would result in a significant loss of privacy. In addition, the property already has numerous bright lights installed in the front garden, which are visually intrusive and out of keeping with the surrounding street. An extension of this scale and design would stand out noticeably and appear inappropriate within the existing character of the area. Furthermore, the current internal renovation works are already causing considerable disruption, with building work continuing until around 11:30pm and cars and vans frequently blocking the street and our driveway. Extending the construction period with further works would create additional stress and disturbance for local residents. For these reasons, I strongly object to the application.
