

Town and Country Planning Act 1990

**Town and Country Planning (Development Management Procedure) (England) Order
2015**

PLANNING PERMISSION FOR DEVELOPMENT

Application Number: 2026/62/90193/E

To: James Whipp
Architecture & Design Practice
The Old Police Station
16 Bridge Lane
Holmfirth
HD9 7AN

For: S SYKES

In pursuance of its powers under the above-mentioned Act and Order the KIRKLEES COUNCIL (hereinafter called "The Council") as Local Planning Authority hereby permits:-

DEMOLITION OF EXISTING BARN AND ERECTION OF TWO DWELLINGS

At: LAND ADJ, 1A, FIELD HEAD, SHEPLEY, HUDDERSFIELD, HD8 8DR

In accordance with the plan(s) and applications submitted to the Council on 21-Jan-2026, subject to the condition(s) specified hereunder:-

1. The development hereby permitted shall be begun within three years of the date of this permission.

Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policies LP7, LP20, LP21, LP22, LP24, LP28, LP30, LP51, LP52 and LP53 of the Kirklees Local Plan, the adopted Housebuilders SPD and Chapters 5, 8, 9, 11, 12, 14 and 15 of the National Planning Policy Framework.

3. Notwithstanding the submitted details, development above slab/foundation level shall not commence until a scheme detailing all external walling and roofing materials to be used in the construction of the development hereby approved have been submitted to and approved in writing by the Local Planning Authority. The submitted scheme shall include details of the external materials of construction of dormer features to the roof. The development shall not be brought into use until the approved scheme has been completed. No materials other than those approved in accordance with this condition shall be used which shall thereafter be retained and maintained for the lifetime of the development.

Reason: In the interests of visual amenity to accord with Policy LP 24 of the Kirklees Local Plan, The Kirklees Housebuilders Design Guide SPD and policies contained within Chapter 12 of the National Planning Policy Framework.

4. The development shall not be occupied until the rear windows serving the room annotated as 'study' upon submitted drawing ref: 25060D-03-P04 have been fitted with obscure glazing or permanently affixed film which achieves an obscurity of Pilkington level four or equivalent. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 as amended (or any Order revoking or re-enacting that Order) The obscure glazing or permanently affixed film shall thereafter be retained for the lifetime of the development.

Reason: To prevent overlooking to the neighbouring properties and to accord with Policy LP24 of the Kirklees Local Plan the Key Design Principles of the Housebuilders Design Guide SPD and policies within Chapter 12 of the National Planning Policy Framework.

5. Notwithstanding the plans submitted, the development shall not be brought into use until a scheme detailing the boundary treatment of the site has been submitted to, and approved in writing by, the Local Planning Authority. The submitted scheme shall include details of the location, heights and materials of the proposed boundary enclosures. The development shall not be brought into use until the works comprising the approved scheme have been completed. The scheme shall thereafter be retained and maintained for the lifetime of the development.

Reason: In the interests of residential amenity of neighbouring occupiers, visual amenity and to accord with Policy LP24 of the Kirklees Local Plan, principles 5 and 6 of the Council's adopted Housebuilders Design Guide SPD and Policies within Chapter 12 of the National Planning Policy Framework.

6. The dwellings hereby approved shall not be occupied until all areas indicated to be private drives and parking areas are laid out with a hardened and drained surface in accordance with the Communities and Local Government; and Environment Agency's 'Guidance on the permeable surfacing of front gardens (parking areas)' published 13th May 2009 as amended or any successor guidance. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 as amended (or any Order revoking or re-enacting that Order) these areas shall be so retained, free of obstructions and available for parking thereafter.

Reason: In the interests of visual amenity and traffic safety, to mitigate flood risk arising from surface water run-off, to ensure adequate space within the site for vehicle movements and parking and to comply with Policies LP24 and LP28 of the Kirklees Local Plan and Chapters 9 and 12 of National Planning Policy Framework.

7. Prior to the installation of any external lighting, a detailed lighting scheme, developed in accordance with established guidance (e.g. Bat Conservation Trust and Institute of Lighting Professionals (2023) Bats and Artificial Lighting at Night), shall be submitted to, and approved in writing by, the Local Planning Authority. The Sensitive Lighting Strategy will demonstrate that the lighting will not impact upon ecological networks and/or sensitive features. External lighting shall be installed in accordance with the specifications and locations set out within the approved lighting scheme and retained thereafter.

Reason: In the interests of biodiversity and in accordance with Policy LP30 and policies within Chapter 15 of the National Planning Policy Framework 2024.

8. Prior to the commencement of development, a detailed Precautionary Working Method Statement (PWMS) in respect of bats shall be submitted to and approved by the Local Planning Authority. In order to minimise risk and avoid harm to bats, the PWMS shall include (but not be limited to) toolbox talks provided by a suitably qualified ecologist, attendance of an ECoW (Ecological Clerk of Works) as required, and careful hand stripping around potential bat roosting features. In the event of encountering a bat, all work must cease until the ecological clerk of works and Natural England are contacted for advice on the best way to proceed lawfully. All contractors working on site should be made aware of this advice and provided with the contact details of the ecological clerk of works.

Reason: In the interests of biodiversity and in accordance with Policy LP30 and policies within Chapter 15 of the National Planning Policy Framework 2024.

9. A Biodiversity Enhancement Management Plan (BEMP) must be submitted to the Local Planning Authority prior to the commencement of above ground works on-site. The content of the BEMP shall include the following:

- Purpose and conservation objectives for the proposed enhancement measures
- Detailed designs to achieve the stated objectives
- Location of the proposed enhancement measures
- Persons responsible for implementing the enhanced measures
- Details of initial aftercare and long-term maintenance.

The development shall not be brought into use until the BEMP has been completed, which shall be retained thereafter.

Reason: In the interests of biodiversity and in accordance with Policy LP30 and policies within Chapter 15 of the National Planning Policy Framework 2024.

10. If contamination, the presence of coal and/or evidence of coal workings not previously identified by the developer prior to the grant of this planning permission is encountered during the development, all works in the affected area (except for site investigation works) shall cease immediately and the Local Planning Authority shall be notified in writing within 2 working days. Works in the affected area shall not recommence until either:

(a) a Remediation Strategy by a suitably competent person has been submitted to and approved in writing by the Local Planning Authority or

(b) the Local Planning Authority has confirmed in writing that remediation measures are not required.

The Remediation Strategy shall include a timetable for the implementation and completion of the approved remediation measures. Thereafter remediation of the site shall be carried out and completed in accordance with the approved Remediation Strategy. Following completion of any measures identified in the approved Remediation Strategy a Verification Report shall be submitted to the Local Planning Authority.

No part of the site shall be brought into use until such time as that part of the site has been remediated in accordance with the approved Remediation Strategy and a Verification Report in respect of those works has been approved in writing by the Local Planning Authority.

Reason: To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 189 and 190 of the National Planning Policy Framework.

11. The Air Source Heat Pumps annotated upon drawing 25060D-02-P05 shall be installed in accordance with the noise standards set out in the document 'MCS Planning Standards for Permitted Development Installations of Wind Turbines and Air Source Heat Pumps on Domestic Premises' and retained as such thereafter.

Reason: to ensure the development has an acceptable impact as a result of noise emissions to accord with policies LP24 and LP52 of the Kirklees Local Plan and policies within Chapter 12 of the National Planning Policy Framework.

NOTE: The granting of planning permission does not authorise the carrying out of works within the highway and the changes to the access within the adopted highway fronting the property will need to be constructed under a section 184 agreement of the 1980 Highways Act (vehicle crossings over footways and verges). You are required to consult the Design Engineer (Kirklees Street Scene: 01484 221000) with regard to obtaining this permission and approval of the construction specification. Interference with the highway without such permission is an offence which could lead to prosecution.

NOTE: A Standard Electric Vehicle Charging Point is one which is capable of providing a continuous supply of at least 16A (3.5kW) and up to 32A (7kW). The higher output is more likely to be futureproof

- Standard charging points for single residential properties that meet the requirements specified in the latest version of "Minimum technical specification - Electric Vehicle Homecharge Scheme (EVHS)" by the Office for Low Emission Vehicles will be acceptable. Basically, charging points that provide Mode 3 charging with a continuous output of least 16A (3.5kW) and have Type 2 socket outlet would be acceptable.
- The electrical supply of the final installation should allow the charging equipment to operate at full rated capacity.
- The installation must comply with all applicable electrical requirements in force at the time of installation.

NOTE: All contamination reports shall be prepared by a suitably competent person, as defined in Annex 2 of the National Planning Policy Framework 2021. Reports must be prepared in accordance with the following guidance:

- Land Contamination Risk Management (LCRM)
- BS 10175:2011+ A2:2017 Investigation of Potentially Contaminated Sites. Code of Practice
- Development on Land Affected by Contamination - Technical Guidance for Developers, Landowners & Consultants - (v11.2) June 2020 by the Yorkshire and Lincolnshire Pollution Advisory Group.

The conditions relate to Planning Control only. Approval under the Building Regulations may also be required, and the applicant should contact their Building Control Provider for further information. Any other necessary consent must be obtained from the appropriate authority. If the applicant commences work without discharging conditions, they will be at risk of enforcement action and invalidating the permission if the planning condition is a pre commencement condition.

NOTE: Please note that the granting of planning permission does not override any private rights of ownership and it is your responsibility to ensure you have the legal right to carry out the approved works, as construction and maintenance may involve access to land outside your ownership.

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

- 07.30 and 18.30 hours Mondays to Fridays.
- 08.00 and 13.00 hours, Saturdays.
- With no working Sundays or Public Holidays.

In some cases, different site-specific hours of operation may be appropriate. Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which work may be carried out.

NOTE: Public bridleway KIR/188/30 should remain free and available to be used prior to, during or after development works. The Council's public rights of way unit may be contacted by telephone 01484 221000 and ask for Sharon Huddleston or via the email address publicrightsofway@kirklees.gov.uk

Plans and Specifications Table:

Plan Type	Reference	Version	Date Received
Location Plan	25060D-01-P01		22/01/2026
Proposed Site Plan	25060D-02-P05		01/07/2026
Proposed Floor Plans	25060D-03-P04		01/07/2026
Proposed Elevations	25060D-04-P02		01/07/2026
Proposed 3D Views	25060D-05-P02		01/07/2026
Proposed Street Scene Elevations	25060D-06-P04		01/07/2026
Design and Access Statement			22/01/2026
Climate Change Statement			22/01/2026
BNG Exemption Statement			22/01/2026
Bat Survey Report	MBE/BAT/2026/025/02		16/06/2026

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Planning Authority has, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2024 and otherwise actively engaged with the applicant in dealing with the application.

The applicant was asked to submit a bat survey report, which was reviewed by KC Ecology and considered acceptable. The case officer raised concern in regard to the boundary treatment and the impact of loss of privacy to neighbouring occupants. The agent therefore revised the plans to include hedging and a cat sliding two storey rear element which was considered acceptable.

Building Regulations Approval is required for most work involving building operations and/or structural alterations. It is the applicant's responsibility to find out if the work permitted by this planning permission needs approval under the Building Regulations, and if necessary to submit an application. If you are not the applicant can you please ensure the applicant is aware of this requirement. Contact Building Control on Tel No: (01484) 221550 for more information.

It is the applicant's responsibility to find out whether any works approved by this planning permission, which involve excavating or working near public highway and any highway structures including retaining walls, will require written approval from the Council's Highways Structures Section. Please contact the Highways Structures Section on Tel No. 01484-221000 Ext 74199 for further advice on this matter.

Details Reserved by Condition

- This permission has been granted subject to conditions. Some of the conditions may require you to submit further details. These conditions normally contain the wording "submitted to and approved in writing by the Local Planning Authority".
- You can apply online for approval of these details at the Planning Portals website at www.planningportal.gov.uk. Alternatively the forms and supporting guidance for submitting an application can be found online at www.kirklees.gov.uk/planning.
- This Authority recognises the need to ensure that you are able to develop the site as effectively and flexibly as possible. However, at the same time it must ensure that development is in accordance with the terms of the planning conditions and legal agreement and the expectations of elected members and local residents set through the decision process.
- You should note the triggers for compliance with the conditions of this planning permission. This Authority is committed to processing applications to discharge conditions in a timely manner. It is important to ensure that submissions are made as far in advance of the trigger to allow time for adequate consultation, discussion and in some circumstances publicity.

- It is important that applications to discharge conditions are accompanied by sufficient information to enable this Authority and its consultees to fully consider and determine the proposals. Whilst officers will endeavour to negotiate solutions, failure to provide a comprehensive submission may result in delay and refusal of the application.
- If you commence work without discharging conditions you are at risk of enforcement action and invalidating your permission if the planning condition is a pre commencement condition.

Development within a Coal Mining Area

DEVELOPMENT LOW RISK AREA - STANDING ADVICE

The proposed development lies within a coal mining area which may contain unrecorded coal mining related hazards. If any coal mining feature is encountered during development, this should be reported immediately to the Mining Remediation Authority on 0345 762 6846 or if a hazard is encountered on site call the emergency line 0800 288 4242.

Further information is also available on the Mining Remediation Authority website at: [Mining Remediation Authority - GOV.UK](https://www.mining-remediation.gov.uk/)

Digital Infrastructure: Fibre To The Property (FTTP)

Access to affordable and reliable broadband is necessary for Kirklees' residents, businesses, and visitors to take advantage of the growing digital economy and 'digital by default' services. Fibre optic cables direct to a property (FTTP) is the most reliable way of delivering high speed broadband connectivity and allows for gigabit internet speeds. Access to high quality digital infrastructure provides the foundations for, amongst other things:

- Economic prosperity – workforces that are digitally-literate enables business to thrive.
- Digital literacy – digital literacy and skills increase employability and people can exploit the internet for transactional, social, entertainment and learning purposes.
- New services – digital delivery can lower costs and provide innovative public and health services more conveniently.

It is therefore advised that digital infrastructure, including FTTP, and its benefits for the development be considered from the earliest feasible stage. Methods include working with Internet Service Providers to install digital infrastructure alongside other utilities or providing pre-infrastructure allowing for speedier installation at a later date.

Note: The provision of fibre infrastructure is often available from certain telecommunications providers free of charge for development over a certain scale, provided that sufficient notice is given. Notice periods are typically at least 12 months prior to first occupation. In some cases, providers may request a contribution from the developer.

Note: Where no telecommunications provider has been secured to provide fibre infrastructure by the time of highway construction, it is advised that additional dedicated telecommunications ducting is incorporated alongside other utilities to enable the efficient and cost effective provision of fibre infrastructure in the future.

Where the application has been publicised by notice(s) in the vicinity of the site. It is respectfully requested that the notice(s) now be removed and responsibly disposed of to avoid harm to the appearance of the area

Appeals to the Secretary of State

- If you are aggrieved by the decision of your Local Planning Authority to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
- If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal against your Local Planning Authority's decision on your application, then you must do so within:
 - i) 28 days of the date of service of the enforcement notice, or
 - ii) within the specified period, starting on the date of this notice,whichever period expires earlier.
- If you want to appeal against your Local Planning Authority's decision then you must do so within the specified period, starting on the date of this notice.
- The "specified period" is 12 weeks where the development relates to a "minor commercial application" as defined within the Town and Country Planning (Development Management Procedure) Order 2010 (as amended), or 6 months in any other case.
- Appeals must be made using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <https://www.gov.uk/appeal-planning-decision>. Further information on the Planning Appeal process can be found online at the Planning Inspectorates website <https://www.gov.uk/government/organisations/planning-inspectorate>.
- You must use the correct Planning Appeal Form when making your appeal. If requesting forms from the Planning Inspectorate, please state the type of application that the appeal relates to so they can send you the appeal form you require.
- The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

- The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based their decision on a direction given by him.

Please note, only the applicant possesses the right of appeal.

Purchase Notices

- If either the Local Planning Authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

An important part of improving our service is to review your feedback on the way that we have dealt with your planning application(s). Please take a couple of minutes to email your comments to dc.admin@kirklees.gov.uk so that we can work on continually improving our customer service. Thank you.

Dated: 07-Jul-2026
