<p>I would like to strongly object to the proposed development entrance being on a single file lane where already accidents are at risk.</p> <p>Having lived on here for over 20 years I also need to access the lane several times a day for work, one single truck can block the lane entirely for upto half an hr at a time as I've experienced for the last year with an already previous development adjacent causing extensive problems to my already stressful work schedule.</p> <p>I also strongly object to the beautiful heritage wall being destroyed. It's part of the fabric and beauty of this narrow lane.</p> <p>Each day the children from the nursery enjoy strolling down here and this development could cause fatal accidents.</p> <p>On another note I have two elderly parents with poor health.</p> <p>I have missed several appointments with previous delays, I need to get to them quickly.</p> <p>An ambulance and Fire rescue team already find this lane hard to access with parked cars so the development would again cause more risks.</p> <p>Kirklees should not even be considering a development on such a high risk junction.</p> <p>If any access was allowed it should be from Oxford Road only. There is already an existing entrance to the land that the developers could use.</p>
