Postcode:	HD2 2DN

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
The original application 93144 was approved despite it being higher than local and national planning policies. This point was raised in objections in a number of the Neighbour Representations, including one from the three local Councillors. It has now been built and completed even higher again with this current “as built” application submitted. To approve it would completely undermine the reasons why planning policies and directives are in place . It would further encourage what seems to be a now common practice of “build what you want, not what you’ve applied for”
