

I am lodging my objection against the property being turned into dwellings. Mr Mohammed Eshak the applicant several times with regards to this property. He is trading under KamiHealthcare Ltd when in reality a quick check on companies house will show you that he resigned in 2024 from this company so no longer has nothing to do with it. It poses the question why is he using this company name when he is no longer affiliated with it. Is this an elaborate way for him to as a way to fund this development under the premise of still being involved with Kami Healthcare? I believe this company and his claims should be investigated to see if everything is above board or whether there is something else going on in an attempt to mislead the council and the people of Birstall. He has already shown a total disregard for authority and planning permissions by carrying out unauthorised work to try get ahead with his plans illegally by destroying the original frontage of the shop without any permissions. In his other application related to this address he has admitted he carried out the work so now you the council know who to prosecute for the works he already started so that he knows he cannot do whatever he wants. His actions must have consequences to deter repeat offences and he should be made to restore the original front of this shop at his expense. After all he has broken the law and committed a criminal offence by altering/damaging a listed building without the relevant permissions and as he is a supposed business man I'm sure he was well aware of the correct procedures but saw that there would be a problem with getting the works passed. Mr Eshak also states in his application that the property is not a listed building which also isn't true. This is a grade 2 listed building within a conservation area. Another problem would be if this was to go ahead it would increase noise and traffic in the area. There is no parking for proposed residents to park at this property. All spaces outside and in the market place itself are for visitors to Birstall using the amenities in our village and parking is for a very limited time. Residents will not be able to park outside or in the market place for hours on end as this will be detrimental to those wishing to shop and attend appointments especially the elderly residents of Birstall. All in all this proposal along with Mr Eshak's other application should be rejected as they bring nothing to the table that will enhance or improve our little village Thankyou
