I sincerely object as the fields provide natural habitat for local wildlife & contribute to biodiversity. The development would permanently remove this green space and could negatively impact local ecosystems. I regularly see owl, hawk, which are rare to see, they will lose their home!! It will cause alot of traffic and chaos on Sunny View & its junction, as the road is not designed to accommodate for this development! For these reasons I respectfully request that the council carefully consider the long term impact this development will have on the character of the area, residential amenity & the well being of the existing residents and refuse the application.
