<p>*This is a Greenfield site which needs to be managed and maintained to conserve the natural environment. Removal of green spaces also has a negative impact on the physical and mental well being of the local population. There are brown field sites which be built on instead. If this is allowed to go ahead it sets a precedent for building on other local greenfield sites.</p> <p>*Further development will introduce even more traffic onto an already congested highway system on White Lee Road and Carlinghow lane. The recent attempt at traffic calming measures has not helped resolved the issues. This continues to be dangerous road network for pedestrians and drivers. Also work is about to start on rebuilding the co-op academy, Smithies moor. Access to building site is from White Lee road which will cause more traffic issues. To introduce another building site only metres up the road would be irresponsible.</p>
