<p>I wish to raise a concern regarding the development on the land adjoining my boundary.</p> <p>The new landowner personally cut down a large tree on the neighbouring land with the help of some friends. During this work, the hedge that forms the boundary on my side of the property was significantly damaged and has effectively been killed. This hedge is part of my property and previously acted as a natural boundary and habitat.</p> <p>There is also an old wall along this boundary which provides habitat for insects and small wildlife. I would ask that this wall is retained and protected from any further disturbance during the development works.</p> <p>Given the damage that has already occurred to my hedge, I request that the developer installs a substantial solid fence along the boundary line to clearly define the boundary and to prevent any further encroachment or damage to my property.</p> <p>I would also ask that appropriate care is taken during any remaining works to ensure there is no further damage to my land, boundary features, or wildlife habitat.</p> <p>Thank you for considering my comments.</p>
