#### **Electricity Act 1989: Overhead Lines (Exemption)(England and Wales) Regulations 2009**

It is proposed to undertake the following work that is considered to be exempted from the Electricity Act 1989 by falling within the Overhead Lines (Exemption)(England and Wales) Regulations 2009:

#### **Electricity equipment fault repair work – Quarry House Farm, High Flatts, Denby Dale, Huddersfield**

Northern Powergrid propose to remove part of the existing overhead line, a standalone pole mounted transformer, and relocate the pole mounted transformer to the new location shown on the plan attached.

A scheme has been raised to divert an existing pole mounted transformer, forming the overhead network at Quarry House Farm, High Flatts, due to clearance issues with the existing farm buildings. A detailed plan is enclosed which contains further information to support the scheme proposal for your information.

As this is an existing line that is proposed for improvements this would fall under the section 37(1) Regulation 3, parts (1a) exemption and stay within the limitations detailed in Regulations 4 and 5.

The Council/Authority is requested to indicate that it has no objection to the work being carried out by returning two copies of this Form with the Certificate completed and signed.

Yours faithfully

*Hayley Say*
