I am very much of the opinion that Iglu sauna is a boon to the community of Slaitwaite. Through the service it offers, the sauna experience provides great mental and physical health improvements to is users in a low impact way for the local environment and making great use of a previously neglected small area of land. When I have used the sauna and listened to what others were saying it is clear that everyone is not only very positive about the contribution that it gives to the local community but it also clear that many individuals go on to to use other services in the village such as cafes, shops and restaurants and as such it provides added benefits to the local economy. Its location is easily accessed from the village on foot but has various local parking sites if required. I am very much in favour of this application to allow this positive enterprise to continue to be an ongoing benefit to the local community.
