I would like to express my strong support for the planning application for Iglu Sauna at Slaithwaite Mills. Since opening in Slaithwaite, Iglu Sauna has provided a unique health and wellbeing facility that complements the area's natural environment and promotes physical and mental wellbeing. The location is particularly well suited to this type of low-impact outdoor recreation, making positive use of the riverside setting while encouraging people to spend time outdoors and engage in healthy activities. The sauna has also brought additional visitors to Slaithwaite, helping to support local businesses, cafés, shops and hospitality venues. Its proximity to the village centre and public transport links encourages sustainable travel and contributes positively to the local economy. Iglu Sauna has demonstrated that it can operate responsibly and sympathetically within its surroundings. The development enhances the range of leisure and wellbeing facilities available in the area without detracting from the character of the site. I believe the proposal represents a valuable community asset that will continue to benefit residents, visitors and local businesses alike.
