I wish to express my support for this planning application. I work in Slaithwaite and regularly visit the area. Having visited the site, I was impressed by how well it has been integrated into its surroundings. The facilities appear clean, well maintained, and thoughtfully designed, with a natural aesthetic that complements the local environment. I believe the sauna provides a valuable addition to Slaithwaite's visitor offer and contributes positively to the local economy. Its location close to the village centre and railway station encourages sustainable travel and makes it accessible to both residents and visitors without creating significant transport impacts. Businesses such as this help attract people to the area who are likely to spend time and money in local shops, cafés, restaurants, and other independent businesses, supporting the wider business community. This is particularly important for a village such as Slaithwaite, where independent enterprises contribute significantly to its character and economic vitality. From what I have observed, the development has a low visual impact, operates in a respectful manner, and enhances the range of leisure and wellbeing opportunities available locally. I therefore believe the proposal represents a positive use of the site and should be granted permission to remain. I fully support this application.
