<p>The lengthy and repeated planning applications for this property were for extensions and alterations to the existing house and garage.</p> <p>This house has now been completely demolished with nothing left above ground level of the previous construction.</p> <p>Any planning application would now need to be for a new build property much larger, more imposing and out-of-character with the surrounding properties.</p> <p>The repeated and modified planning applications (some refused and some withdrawn) are simply being put in to overwhelm and confuse the planning procedures in the hope that the new owners will get planning for a property that was rejected previously by repeatedly modifying and adding to ongoing granted applications.</p> <p>The owners did a similar thing with planning applications for their current existing dwelling elsewhere in Heckmondwike to gain approval for things repeatedly rejected.</p> <p>Photos of the demolished property are available from me if requested by the Kirklees planning.</p> <p>Otherwise a visit to the site ASAP by Kirklees planning will be required to confirm the complete demolition of the existing property.</p>
