<p>looking at the letter dated Feb 2026 regarding the 'alterations' it is difficult to amend plans for a property that has been demolished. Are the council aware this is the case? the style of property proposed (turning into a complete rebuild) is completely out of character for the area.</p> <p>Can Kirklees at the very least go to site to inspect and hold the owner responsible for demolishing a building which had a large presence on Cawley Lane.</p> <p>I find it hard to believe this is legal</p>
