The sports club is a registered charity, are the charity commission aware of and approve the sale? Are there enough independent trustees to agree to the sale? The current access to the ground is restricted and not available to the public for the majority of the time how will this project improve public access? The scale and size of the development seems to be out of character to the current properties. The location and size of the proposed property will be very near to the sloped banking coming down from the club car park where a large annual bonfire that can attract hundreds of people takes place have sufficient health, safety and privacy considerations been put in place? I'm not against development but the size of the property would appear to be out of character, also there have been other opportunities through grants and private sponsorship to improve the ground/clubhouse that have not been taken up.
