<p>We are supportive of the development as housing is needed in Scissett. The proposal includes 1 dwelling which is unlikely to have significant negative impact on the local area of residents. During construction the proposed driveway route, will be unsuitable for construction traffic due to its narrow width. Therefore, access for construction traffic and materials should be made via the current sports club access road. A suitable construction environmental management plan and traffic management plan should support the application to mitigate construction road safety risks.</p>
