<p>Access. The plans say pedestrian and vehicle access how can that be achieved when the access is only 12feet wide.</p> <p>No 1 Lower Common Lane have a 12 foot right of way up the proposed access to maintain their boundary and fence. There must be a safety issue there.</p> <p>The access is 45 yards long with a gradient what would happen if one vehicle was entering at the same time as one exiting at only 12 feet in width there is not enough space for 2 vehicles to pass. Also is it wide enough for a fire engine to access the property and turn round ?</p> <p>Within the first 30 yards of a busy junction with Barnsley Road there would be 5 driveways one of which is into a day nursery car park there are KEEP CLEAR and WHITE LINES on the road but parents still park there instead of using the car park and staff park cars on the roadside making it narrow and not safe for children and pedestrians another driveway would only make matters worse.</p> <p>AN ACCIDENT WAITING TO HAPPEN</p> <p>I would request a visit from planning and highways before a decision is made .</p> <p>The house itself is 3 stories so not in keeping with other properties. On the first floor there is a rap around patio and on the second floor a veranda which looks straight down onto the rear and garden of the bungalow below meaning that there privacy is taken away.</p> <p>They are my objections</p>
